

The Firms

Images in Architecture, Inc.

Images in Architecture, Inc. was formed and incorporated in 1990. The staff includes; two Principals - Greg Moon and Bohdan Kaminski, our Project Manager - Michael Moulton and our Office Manager - Kate Andrzejewska. The diverse backgrounds of the Principals allow them to successfully handle a wide variety of building types including retail, office, hotel, multi-family and single family residential projects. Images' commitment to high quality design and document production is achieved through the use of computer aided design (CADD). With over 20 years of computer experience, Moon and Kaminski feel that CADD allows them to reduce production time and increase drawing clarity which in turn reduces costly field mistakes. The overall experience of the staff harbors a strong and efficient work ethic within the firm. The diversity of the architectural background of each individual staff member allows Images to address each project with a variety of different design approaches. This variety yields each project a "fresh" design perspective. Images prides itself with giving each project the personal attention of a small sized firm with the quality of work and professionalism of a large firm.

Images by Kaminski and Moon, Inc.

Images by Kaminski and Moon, Inc. was formed in 1993 as a natural extension of Images in Architecture. Images by Kaminski & Moon is the "build" counterpart in the Design/Build team. While Images in Architecture takes on a wide variety of different job types, Images by Kaminski & Moon, Inc. specializes exclusively in custom residential architecture. Work includes new homes as well as the vast majority of the work which is remodeling. By maintaining an in-house staff of highly skilled carpenters, masons, tile layers, finish carpenters, painters, as well as a team of highly qualified subcontractors, they are able to control not only the job's schedule, but its overall standard of quality. To that end, the firm will only work on four to five projects in the field at any one time. Unlike many firms that accept any job, Images has found that by limiting the number of jobs produced, they are able to give each project the individual attention that is required and deserved.
