Thin Film printheads

Gulton - A Brand You Can Trust

- **Manufacturer of thermal printheads since 1972** ▪ **Thick film printheads**
- **A pioneer in thermal printhead manufacturing** ▪ **Thin film printheads**

Gulton is a pioneer in thermal printhead development and production. We have developed a hard protective coating that extends the abrasive life of our printheads by up to four times that of our competition. Gulton's corporate office and production facility is based in the United States. We manufacture OEM and OEM compatible thermal printheads for shipment worldwide. Examples of our vertical markets include; but are not limited to: barcode, gaming, wagering, lottery, tag ticket, label, transportation, petroleum, financial and automated data collection markets.

Thermal Printheads

Printheads for OEM

Gulton supplies both thick film and thin film thermal printheads. Our thick film printheads are offered with an optional DLC coating on the printing surface. This extremely hard coating gives Gulton printheads the advantage of having the longest abrasive life in the industry. Due to our low cost tooling, custom designs for low volume orders become economically feasible.

Standard Printhead Models

Part Number	Width (mm)	Dots/mm	Dots/Inch
SMP-013-064	13	5	125
SMP-016-064	16	4	102
