amazing comfort

"I do a ton of walking at work on concrete floors. After reading other good reviews, I chose these shoes. They live up to the hype! They are light, airy and supremely cushioned. My feet are happier than ever. Cute, too!"

Overall 

Most comfortable shoe

Comfort 

"I have tricky feet– athletic shoes often make parts of my feet numb–but these are a delight for taking a nice walk. The arch support is excellent–and they are adorable. These are incredibly comfortable shoes–very lightweight and airy."

Overall 

STYLISH AND VERY COMFORTABLE

Comfort 

"I'm a 30 something doctor so I'll on my feet hours and hours.

Quality 

Didn't want the classical look but needed to be comfortable, unique and cute. When worn with thin, cuffed anklet this combination is a positive feedback. Majority of women wanting to know where I got them.

Style 

They are cute ... and no tired feet !!"

LIKE SLIPPERS

"I have bad feet, arthritis, and diabetes, so shoes are of the utmost importance. I received these shoes 3 days after I ordered them, put them on straight from the box, and they feel like slippers they are so comfortable! And they're cute too!"
