

GRAB ONE BEFORE IT'S GONE

Dear Tyler,

What's the best way to celebrate an anniversary like ours? Grabbing a bottle or pint of our limited edition 250 Anniversary Stout, of course. As the 250th Anniversary festivities continue to their culmination on September 24th - Arthur's Day - keep in mind that celebrations, like our fresh take on your favorite brew, can't last forever.

Specially created by our brewmaster, the 250 Anniversary Stout is distinctly Guinness while adding a new twist to an already refreshing taste. A unique brewhouse process blends two malt types to create an original experience with the hints of our tradition. Its crisp finish is thanks to the carbonation rather than the familiar nitrogenated feel you know and love.

Available at select stores and bars, grab one before supplies run out. This is your chance to taste the beer created with the express purpose of celebrating 250 years of perfection.

Sláinte.
