RAGE

Description

RAGE comes to your mobile device with the hit of the wastelands, Mutant Bash TV! This intense first-person rail shooter casts you in the starring role of a post-apocalyptic game show where you'll be stalked by hungry mutants while you scour pulse-pounding levels for ammo and cash pick-ups. Make a deal with J.K Stiles, the show's menacing host, and see if you have what it takes to survive this carnage-filled carnival of death!

Note: RAGE HD with even higher resolution textures also now available on iTunes for the iPhone 4, iPod 4 and the iPad.

KEY FEATURES
• Created specifically for the iPhone, iPod Touch and iPad . . . experience the post-apocalyptic mayhem of the RAGE universe for the first time!

• Arm yourself with a pistol, shotgun or machine gun, and battle your way through three levels - the mutant-infested Tenements, the lunatic-ridden Asylum and the not so-abandoned Bunker.

• Perform hit-streaks and pick up 'Bash Bux' to increase your performance as you make your way through the action-packed levels, each with four degrees of difficulty.

• Complete Mutant Bash TV challenges and replay levels to beat your top score.

• Experience high resolution graphics coupled with dynamic music and sound effects.

* Requires minimum of iOS 3.2.

** You may experience crashing in this version if your device is not set to English as the default language.
