

**PRINCIPAL FUNCTIONING AGENTS:**

Proprietary blend of nonionic surfactants. . . . . 100%

**TOTAL** . . . . . **100%**

*All ingredients are exempt from tolerance under 40 CFR 180.*

**NON-PLANT FOOD PRODUCT**

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

When mixing or applying, wear appropriate personal protective equipment including splash goggle or face shield and impervious gloves. May cause irritation to skin and eyes. Ingestion of large amounts may cause mucosal irritation, dizziness, nausea, and possible vomiting. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**FIRST AID**

*Call a poison control center or doctor immediately for treatment advice.  
Have the product container with you when calling a poison control center or doctor,  
or going for treatment.*

**If swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth to mouth if possible.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

**GENERAL INFORMATION**

Cycle offers professional turf managers a reliable water management tool. Cycle helps to improve water infiltration and holding capacity so water can move evenly into soil profiles and provide adequate soil moisture for root uptake.

**DIRECTIONS FOR USE**

For optimum results, apply Cycle at the first signs of drought stress or before signs appear. While watering after application is not required, irrigation will improve performance by moving the product into the soil profile. If grass cutting is performed prior to irrigation, do not remove clippings as much of the product may still be on the leaves. During high temperatures and severe turf stress the following precautionary measures are highly recommended: pre-wet the leaf blades before application and water in immediately after application to insure product performance and safety.

**APPLICATION RATES/INTERVALS:**

**Monthly applications:** Apply Cycle at a rate of 4oz in a minimum of 1 gallon of water per 1000 sq. ft.

**Bi-weekly applications:** First apply Cycle at a rate of 4oz in a minimum of 1 gallon of water per 1000 sq. ft. Then apply Cycle at a rate of 2oz in a minimum of 1 gallon of water per 1000 sq. ft. every 2 weeks thereafter.

Repeat applications until drought stress conditions cease in order to prevent symptoms from returning.

**MIXING INSTRUCTIONS:**

If Cycle is mixed with other chemicals such as pesticides, always follow label instructions on the product with which Cycle is being mixed. A jar test should be performed in order to ensure compatibility. Apply some of the jar test mixture to a small turf area and observe the turf area for safety.

ORDER OF ADDITION: (Mix vigorously during all additions)

- 1) Part or all of water.
- 2) Water-soluble bags and water soluble powders and granules.  
Add each one separately and allow to dissolve thoroughly before moving on to the next product.
- 3) Cycle.
- 4) Spray indicators.
- 5) Water soluble liquids and concentrates.
- 6) EC's then any additional water.

**STORAGE, HANDLING AND DISPOSAL**

Store in a cool, dry place in original container. Do not add water to container. Store away from extreme heat, fire, flame or sources of ignition. This product is best stored and handled between 40°F (4°C) and 90°F (32°C). If product freezes, warm until free-flowing and shake. When empty, triple rinse container and pour rinseate into storage or mix tank. Dispose of the container according to all federal, state and local laws and regulations.

**Warranty Statement**

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
