

ABOUT ENPHASE

Enphase Energy is the world's leading microinverter systems provider, pursuing unique, high-tech innovations to continually advance the performance and intelligence of residential and commercial solar energy systems. The Enphase Microinverter System consists of three components:

- **Enphase microinverters** with record inverter efficiency of 96%
- **Envoy communications gateway** providing advanced powerline networking capabilities
- **Enlighten monitoring and analysis** offering unique, web-based system monitoring and maintenance services

VISION

Enphase's vision is to make solar simple and energy smart so everyone is empowered to create a zero energy footprint for themselves, their home and their business.

TIMELINE

- 2006:** Raghu Belur & Martin Fornage co-found Enphase Energy
- 2008:** World's first microinverter system introduced
- 2009:** Second generation technology introduced (M190)
- 2010:** Enphase surpasses 500,000 units shipped
- 2011:** Third generation launches & Enphase expands internationally
