

7.5FT SYLVANIA™ ONE PLUG™ PRE-LIT RIDGELAND PINE LED TREE, #V67300-26

Thank you for purchasing this new Sylvania™ One Plug™ tree. This tree assembles with Quick Connect™ technology for a faster, easier, and safer tree. Your new tree is lit with low voltage energy saving LED lights.

This 7.5ft tree is pre lit with 600 Warm White LED lights:

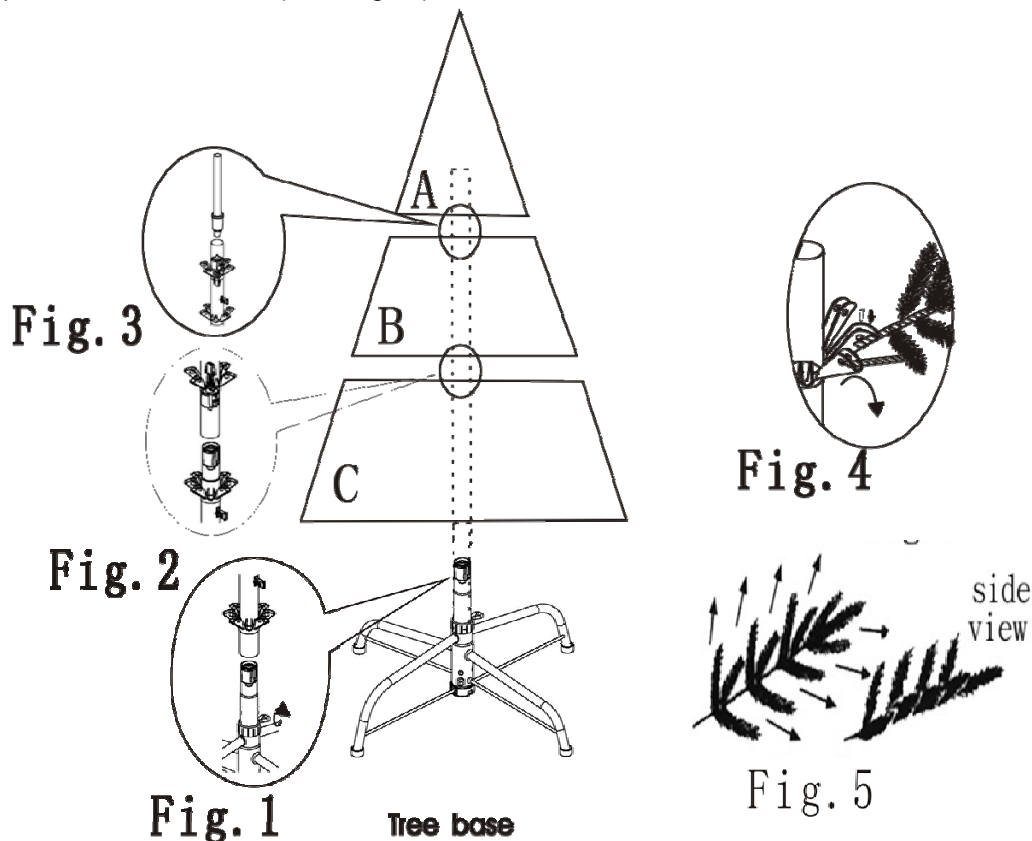

CARTON INCLUDES:

- 3 Pre-lighted tree sections (A-Top, B-Middle, C-Bottom)
- 1 Sturdy metal tree base
- 1 Screw for tree base
- 8 Spare Bulbs

ASSEMBLY:

Note: Before you start to assemble your tree please choose a location near an electrical wall outlet. Place the tree stand on a level surface. Please remove protective plastic covers from the base of the pole from each section.

1. Unfold the tree base and insert screw into the hole and tighten. (See Fig.1)
2. Carefully insert the bottom section (C) of the tree into the tree stand vertically and securely to insure of a proper circuit connection. (See Fig. 1)

3. Insert the middle section (B) of the tree into the bottom section (C) vertically and securely to insure a proper circuit connection. (See Fig. 2)
4. Insert top section (A) into the middle section (B) vertically and securely to insure a proper circuit connection. (See Fig. 3)
5. Plug extension cord from base to electric outlet.
6. Allow the branches to fall into place or gently pull branches up and out. When adjusting branches be sure that all wires are free of branch hinges.(See Fig.4)
7. Shape the branches. Starting with tips closest to the pole, shape one tip to the right, one to the left and one at the center of the main stem. Repeat pattern for each branch (See Fig.5).

Congratulations your new Pre-lit Tree is now complete and ready for decorating!
