Sweet Spot targets the whitetail's most powerful sense – smell – to attract and hold them like a magnet. Increasing activity around your stand draws more deer to the area. With the power of F5, this attractant is the most effective formula C'Mere Deer has released to boost your opportunity for overnight success!

Sweet Spot is similar to 3-Day Harvest, only it's on steroids. It will successfully draw deer from long distances and keep them coming back for more. Field tests have shown that it increases deer activity. It is especially effective in late season when deer are focused on finding food.
