## THE REBOOT POUCH DELIVERS FULL ANTIOXIDANT SUPPORT...FAST

Reboot delivers its potent antioxidant system to your body using a unique, clinically tested pouch design.

This proprietary Reboot pouch has been designed and tested to deliver antioxidant support at its highest potency. It has a special two-compartment design, both sealed against oxygen. The top compartment contains the dehydrated Reboot plant material – a unique blend of natural extracts from seven antioxidant-rich fruits and plants. The bottom compartment contains 60ml of reverse-osmosis, purified water.

### JUST POP, SHAKE, AND DRINK.

Activating the pouch is simple. You just squeeze it firmly at the bottom, pushing the water up until you hear the inner seal pop. Shake to dissolve plant material, then tear open and drink the pleasant, tea-like Reboot blend.

WATCH THE VIDEO FOR A LIVE DEMONSTRATION OF THE REBOOT POUCH!

45X FASTER ABSORPTION THAN PILLS

10X FASTER THAN GEL CAPS

### HIGHER POTENCY THAN STANDARD ANTIOXIDANT BEVERAGES

The award-winning Reboot pouch preserves the potency of the powerful nutrients and compounds contained in the plant material. The antioxidants in typical premixed antioxidant drinks have lost their potency by the time you consume them.

### 45X FASTER ANTIOXIDANT ABSORPTION

Clinical studies prove that Reboot in its unique liquid form dissolves 45 times faster than pill form and 10 times faster than gel capsules. And you'd need 6 pills or 10 gel caps to deliver the same amount of active antioxidant ingredients as with one Reboot pouch. With Reboot, you simply get more free radical fighting antioxidants into your bloodstream faster ... and they go to work more efficiently to protect your cells.
