About Us

Tamaño Letra

ICARE Medical Services is a multinational company focused on offering high quality, comprehensive medical solutions in an easy, practical and affordable way.

ICARE Medical Services has developed a robust network of doctors, specialists and high-level institutions both in the U.S. and Colombia. Through our online and onsite services we offer comprehensive medical care as well as second medical opinions. Our diagnosis processes and treatment options for diverse pathologies are at science's and technology's forefront.

Our team

ICARE Medical Services has a rigorous process to select the best specialists and sub-specialists from Colombia and the US. Our doctors are committed to improving the quality of life and treatment options for patients throughout their efficient work, permanent leadership, excellent professional training and personal warmth.

Our Partners

Dr. Francisco Cabal Hurtado is an Orthopaedic Surgeon with over 15 years experience. He is a member of the Orthopaedic Department and international advisor of the Country Clinic in Bogota as well as Post Medical Advisor for the U.S. and British Embassies in Colombia. He is a leader and pioneer in the field of International Medicine in Colombia. Dr. Cabal also belongs to the Colombian Society of Orthopaedic Surgery and Traumatology (SCCOT) as well as to the American Association of Orthopaedics Surgeons (AAOS).

Sergio Vélez Peláez is a Colombian entrepreneur graduated in Business Administration from the Northeastern University in Boston. He has over 11 years experience in the business sector. He is the owner and co-owner of several Colombian and American companies in the fields of construction, tourism, service delivery and personal leadership.

MISSION

To provide access to high quality health services through a selected network of doctors and institutions in order to become the best option for patients, families and insurance groups in the management of the most diverse pathologies.

VISION

ICARE Medical services will successfully deliver the best access to information, technology and health service to the patients and the medical community.
