The new International Rectifier AEC-Q101 qualified COOLiRFET™ technology sets a new benchmark with its ultra-low $R_{DS(on)}$. The advanced silicon trench technology has been developed specifically for the needs of automotive heavy load applications offering system level benefits as a result of superior $R_{DS(on)}$, robust avalanche performance and a wide range of packaging options.

The COOLiRFET™ Advantage:

- Benchmark $R_{DS(on)}$
- AEC Q101 qualified
- High current capability
- Robust avalanche capability

Key Applications:

- Electric power steering
- Battery switch
- Pumps
- Actuators
- Fans
- Heavy load applications
