We have release date updates to share, along with a collection of new Heists screenshots.

Online Heists

We are excited to announce that the launch of Heists for GTA Online is scheduled for March 10th. We know it's been a wait, and appreciate your patience. Heists will bring a brand new 4-player cooperative gameplay experience to GTA Online, giving players the chance to team up to pull off a string of intense, multi-part raids and robberies across Los Santos and Blaine County. Over the next couple of weeks, we will have more information about the launch of Heists and about other new features that we will release with it.

GTA V for PC

GTA V for PC will be arriving on April 14th at retail and as a digital download. Our apologies to PC gamers worldwide who have been counting down the days until the launch of the game, but a bit more time is needed to ensure that the game is as polished as possible, and to make certain that both Heists and the GTA Online experience are ready to roll out on day one for PC. As a gesture of thanks for your understanding, we will grant anyone who has pre-ordered the game an additional \$200,000 in-game cash for use in GTA Online.

As always, we ask for the GTA PC community's understanding and assistance in helping to report any concerns during the early days of launch when those inevitable initial teething issues arise on the new platform. If you do experience issues please visit [Rockstar Games Support](#) and send feedback to [GTAOnline@rockstargames.com](mailto:GTAOnline@rockstargames.com) – we'll be closely monitoring the situation and addressing any hitches as quickly as we can.

The PC version of Grand Theft Auto V is our most graphically and technically advanced version yet, fully optimized to support a broad range of current hardware ([system specifications](#)) and features a host of PC-specific enhancements including greater levels of detail, deep configuration options and ultra-high-definition support – as well as the powerful new Rockstar Editor for recording, staging and editing original custom videos.

Los Santos: a sprawling sun-soaked metropolis full of self-help gurus, starlets and fading celebrities, once the envy of the Western world, now struggling to stay afloat in an era of economic uncertainty and cheap reality TV.

Amidst the turmoil, three very different criminals plot their own chances of survival and success: Franklin, a street hustler looking for real opportunities and serious money; Michael, a professional ex-con whose retirement is a lot less rosy than he hoped it would be, and Trevor, a violent maniac driven by the chance of a cheap high and the next big score. Running out of options, the crew risks everything in a series of daring and dangerous heists that could set them up for life.

The biggest, most dynamic and most diverse open world ever created, Grand Theft Auto V blends storytelling and gameplay in new ways as players repeatedly jump in and out of the lives of the game's three lead characters, playing all sides of the game's interwoven story.

Developed by series creators Rockstar North, Grand Theft Auto V is available worldwide for PlayStation®3, PlayStation®4, Xbox 360®, and Xbox One®. Coming April 14 for PC.

All the classic hallmarks of the groundbreaking series return, including incredible attention to detail and Grand

## OFFICIAL GAMEPLAY VIDEO

Grand Theft Auto Online is a dynamic and persistent open world for 16 players (or up to 30 on PS4, Xbox One and PC) that begins by sharing content and mechanics with Grand Theft Auto V, but continues to expand and evolve with content created by Rockstar and other players. Taking the fundamental concepts of open-world freedom, ambient activity and mission-based gameplay and making them available to multiple players in an incredibly dynamic online world, we offer players the freedom to explore alone or work cooperatively with friends to complete missions. Residents of Los Santos band together to participate in activities and ambient events, or compete in traditional game modes with the entire community, all with the personality and refined mechanics of Grand Theft Auto V.

You start by creating and developing a unique character from the ground up and can invest in your potential criminal by customizing his or her appearance, improving their stats, owning customized vehicles, purchasing personal property, and taking part in Jobs, Missions and activities that continually open up new opportunities to rise through the criminal ranks.

Grand Theft Auto Online will continually expand and evolve over time with a constant stream of new content, creating the first ever persistent and dynamic GTA game world.

# Grand Theft Auto: iFruit

The free iFruit mobile app hooks directly into your Grand Theft Auto V experience featuring:

## Los Santos Customs

The Los Santos Customs app offers players the freedom to create their ultimate vehicle in Grand Theft Auto V from anywhere. At the bar, on the beach, on the toilet. This is the future, we're almost sure of it.

You can even create and reserve custom license plates for both Grand Theft Auto V and Grand Theft Auto Online – order your personalized plates before they're gone!

Also choose from paint jobs, window tints, smoke colors, wheels, hoods and spoilers. Upgrade your engine, brakes, exhaust, suspension, and accessorize with new lights, horns, tires and body armor. Place your order on-the-go and find it waiting for you in the garage the next time you play Grand Theft Auto V, or send your order in while playing and get a call from your local mechanic to swing by. Everybody's had some work done in Los Santos, so don't let your ride be the exception to the rule.

The Grand Theft Auto: iFruit app is now available for iOS, Android™, Windows® Phones and PlayStation® Vita.
