- DC fast charger with AC power supply included
- Potent 370-size brushless motor

Needed To Complete

- Nothing! Everything you need to get flying is included in the box.

Video Overview

CONSCENDO™ S

Earn your glider wings behind the sticks of the HobbyZone® Conscendo™ S motor glider. Built from lightweight and durable Z-Foam™ material and equipped with a 1.5-meter wing the Conscendo™ S makes hitting max altitude easy and fun. This intuitive trainer gives you the freedom of 4-channel control and SAFE® technology. With SAFE, you can progress through multiple flight modes and instantly return to steady flight with the push of a button using Panic Recovery Mode. Whenever you fly, the brushless Conscendo motor makes it easy to gain altitude while an extended range 2.4GHz connection keeps you searching for thermals, even from afar. Just launch and climb to your desired altitude, bring down the throttle, watch the propeller fold and you're ready to catch thermal updrafts. It's that easy.
