New Stand Up Paddleboards are on order

June 02, 2016

We are please to announce that we have ordered new Stand Up Paddleboards for Sandy Cay

ABOUT

SANDY CAY HISTORY

Sandy Cay was first settled in mid-1960's by the Founder of Zenith Electronics as a private island retreat for his friends and family. The first house, the Casa Contenta, was built in 1965 on the South side of the Island in the traditional Man O War style building. The property then expanded to the Marina and Main House being built on the north east part of the Island. Again using Man O War building techniques the entire 5,400 square foot main house was built in 1968 by hand, without the use of any power tools. The other houses and the Gym building were built over the next several years and after the island was acquired by two families in 1983.

After enjoying the property for over 30 years, they decided to sell it and we purchased Sandy Cay in early 2016. We are upgrading the property and bringing new technologies, such as home automation and extended high speed wifi to the Island. We currently rent Sandy Cay to special guests as an exclusive private island resort.

WHY CHOOSE US?

The property is fully staffed with six full time crew which include captain, care takers, painter, housekeeping, and landscapers. Sandy Cay is very private, but also has many amenities of a full resort such as two (2) beautiful beaches, boats, wave runners, glass bottom kayaks, stand up paddleboards, a laser sailboat, a fully equipped dive shop with tanks, regulators, BC's, underwater scooters, viewers, fishing and snorkel gear.

PRISTINE BEACHES

OUR CREW

The Crew is incredibly accommodating and have all been on the Island for over 9 years, with some of the staff being part of Sandy Cay for over 23 years. They will make sure your stay is comfortable, relaxing and will afford you the privacy you desire. One of the captains will take you on day trips via one of the vessels, provide snorkel or diving adventures, island hopping, or just exploring the beautiful Cays of Abaco.

AMENITIES

- Two (2) pristine beaches (west & south sides of the Island)
