Want to see what Trupanion Express is all about? Check out this quick video to see for yourself how it works.

trupanion express™

Designed with hospital teams in mind

- ✓ **Provide an exceptional experience for clients.** The online claims process means clients no longer have to be reimbursed. You receive payment directly!
- ✓ **Know what's covered before they go.** Most claim decisions are made within 5 minutes.
- ✓ **Simplify your workflow.** File claims, submit preapprovals, and issue certificates with just a few clicks. No more printing and faxing claim forms.
- ✓ **Reduce credit card transaction fees and accounts receivable.** We deposit claim payments directly into your hospital's account daily.
- ✓ **Keep pharmacy sales within your hospital.** With no need to wait for reimbursement checks, pet owners are more likely to use your in-house pharmacy and bypass the traditional reimbursement process that applies to pharmacies outside your hospital.

Trupanion Express has revolutionized the experience for hospitals across the US & Canada

45,000+
claims paid
directly to
hospitals

\$3,550,000+
paid to a
single
hospital in
claims

Imagine a world where printing out and faxing or emailing claim forms didn't exist. And where clients with pet insurance had their claims paid directly to your hospital's bank account — so pet owners' only out-of-pocket expense was for their portion of their bill.

Well we're here to tell you to stop imagining because this is the new reality with Trupanion Express!

Trupanion Express is a game-changing web application that communicates with your Practice Management System to provide benefits never before possible.
