## NRG IntelliTools™ Controller

**It's never been easier for you to take charge.**

The **NRG IntelliTools™ Controller**, powered by EnTouch Controls, is a suite of energy management products and services that deliver total facilities intelligence to your business. It features HVAC controls, lighting controls, thermal sensors and energy monitoring to fit your specific needs. Since it's your energy, you should be able to monitor it simply and efficiently.

With the device, you'll be able to:

- ✦ Equip your restaurants, fast food chains, small retail offices and educational facilities with real-time monitoring
- ✦ Cut your electricity consumption and watch your electricity bills shrink\*
- ✦ Provide a return on investment (ROI) break-even as low as one year
- ✦ Benchmark your various sites and control multiple locations from one dashboard
- ✦ Identify hidden maintenance errors and monitor equipment health
- ✦ Enjoy the assurance of fee-based, 24/7 monitoring, reporting and dispatch services

Want to learn more? Take a look at the [IntelliTools™ Controller Data Sheet \(PDF\)](#). Contact your NRG Account Executive today to learn more and sign up for the IntelliTools™ Controller solutions, or call **1-888-315-1558** for information.
