

### WHAT INSPIRED US?

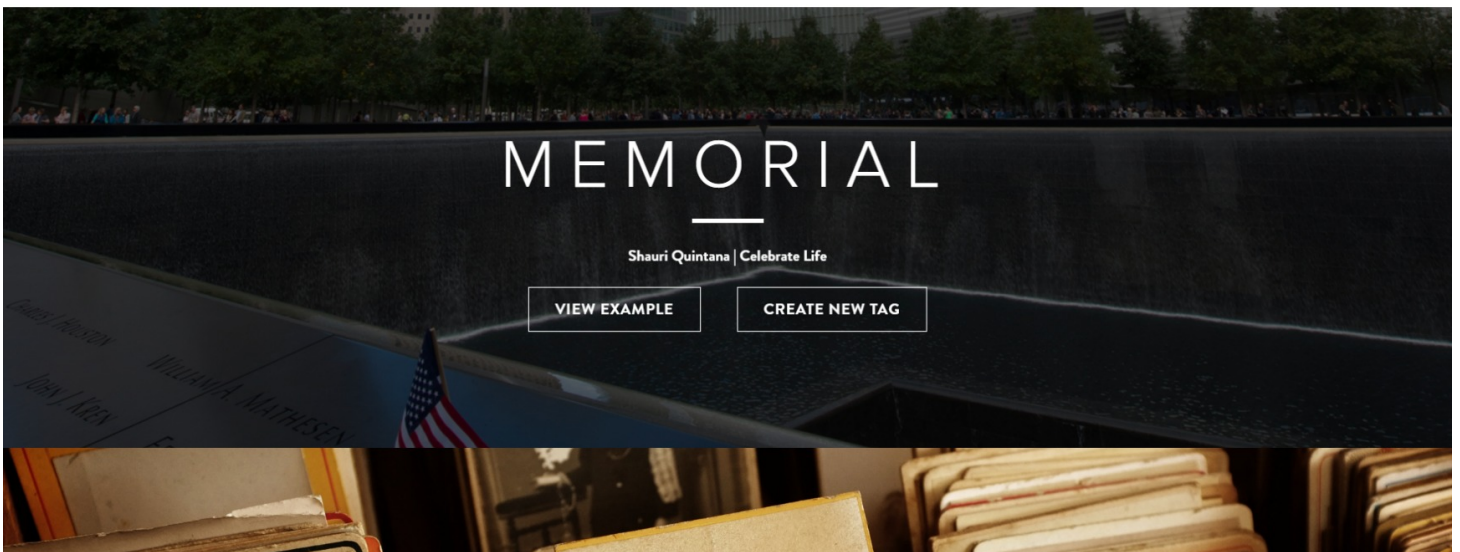

#### Everyone Has an Inspiring Story

##### Let It Be Discovered

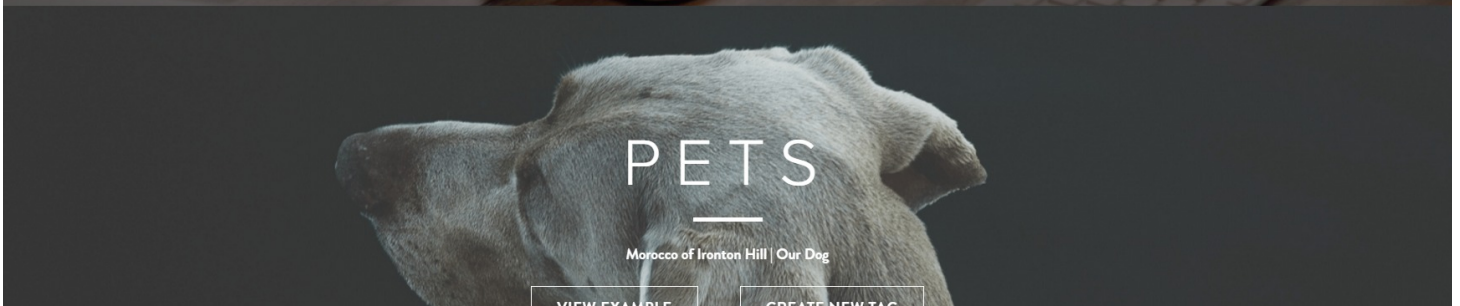

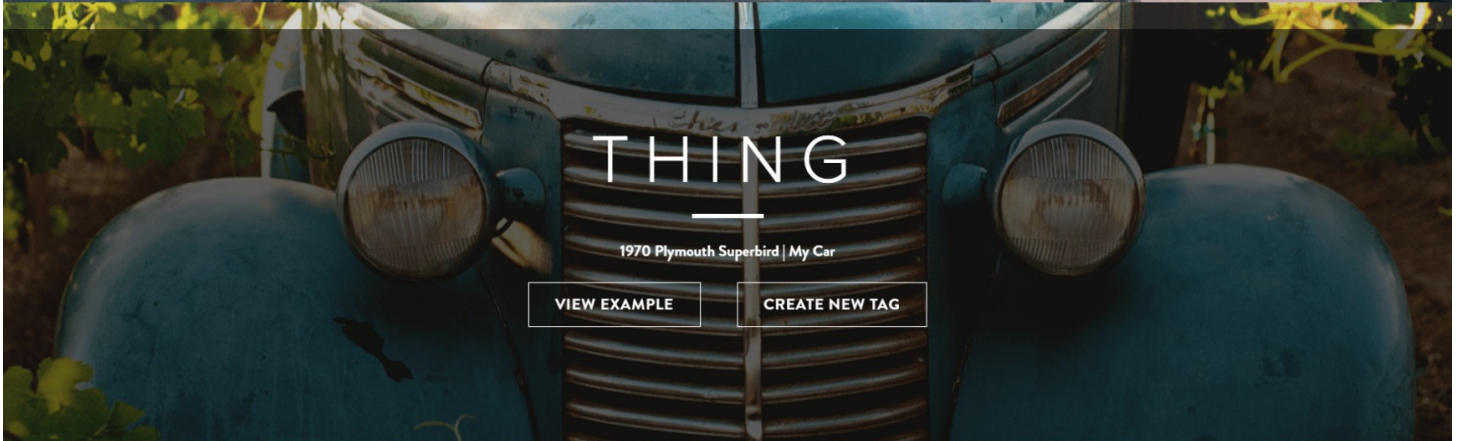

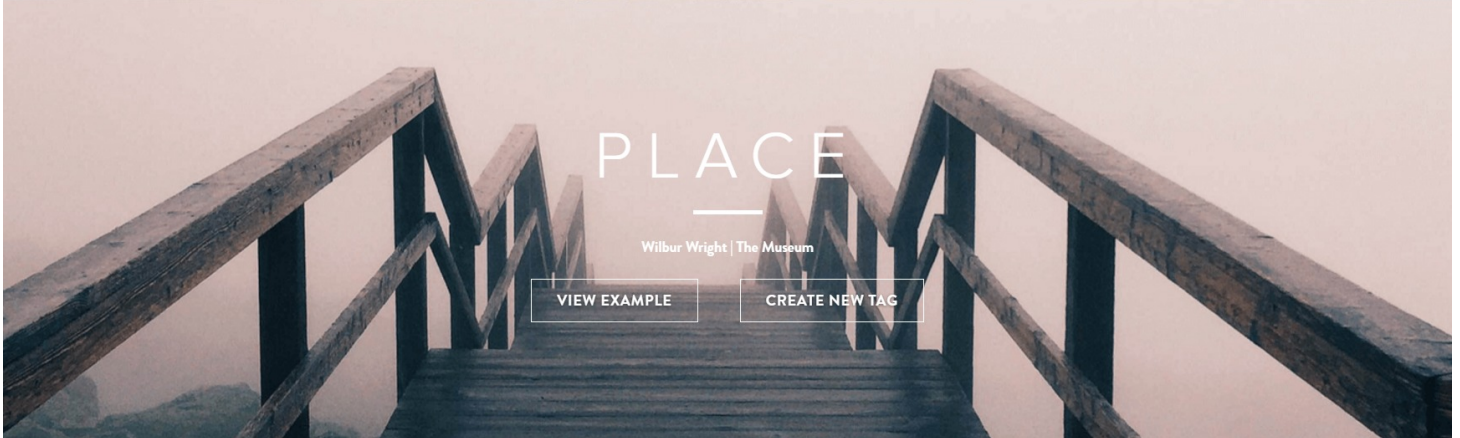

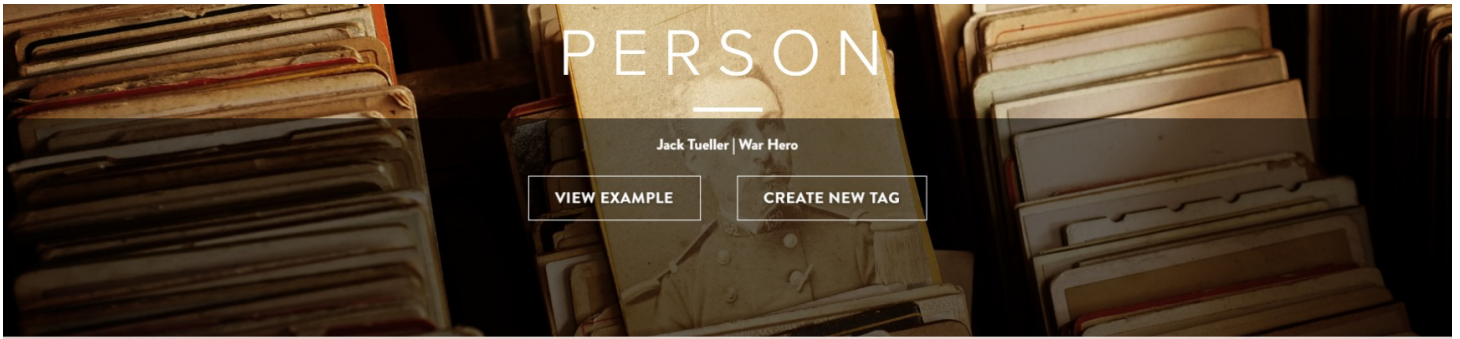

Inspiration lives in all of us—capture it with an everlasting digital memorial from LivingTags™. Create a beautiful, digital profile by uploading photos, video, documents, and text that celebrates the life of a loved one, and chronicles their personal story in a living memory.

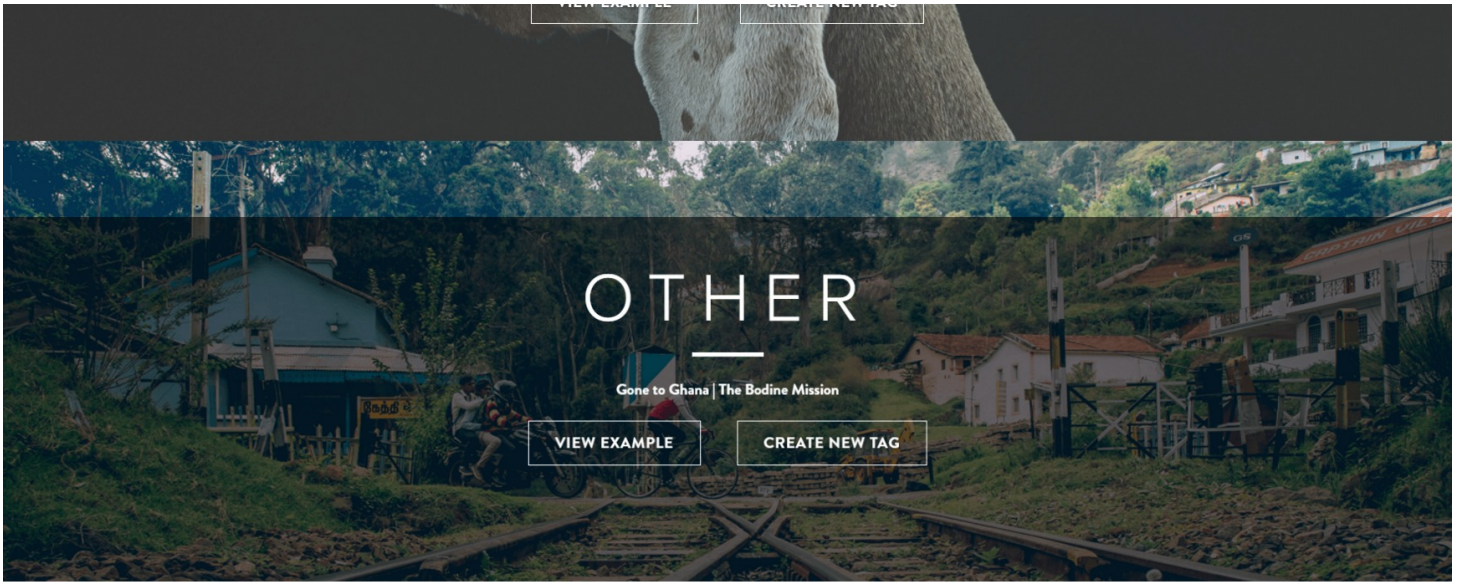

### WHAT WILL YOU TAG?

## HOW A LIVING TAG WORKS

A LivingTag is an online collection of memories—text, photos, videos and more—that chronicles the life of a loved one or anything you wish to memorialize.

You create your LivingTag to preserve memories and share them with your friends, family, and others around the world.

Once created, you can continue to add memories to your LivingTag or invite others to add their own memories as well.

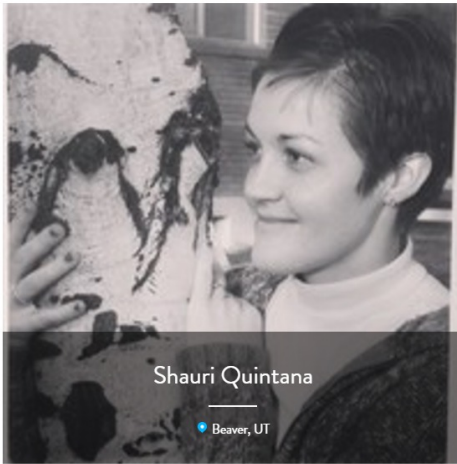

You can add a geographic location (geo-tag) to each memory you add, further enriching the memorial.

Share your LivingTag at any time, online or in person, using your LivingTag's unique web link, QR code, or Key – a small piece of aluminum that is laser-engraved with your LivingTag's QR code and can be affixed anywhere.
