

## Gate Smart Lock Setup Instructions

Make sure your Gate is charged and battery is in place (the lock will light up initially when the battery is placed)

Download the Gate app on your smartphone. Search for "**Gate Door App**" on the App Store or on the Google Play Store.

Perform the in-app setup and provide the required permissions that the app asks for.

As soon as you connect your Gate to your Wi-Fi, you are ready to use your Gate!

For more information visit [getgate.com/setup](https://getgate.com/setup).

**Enjoy your new Gate Smart Lock!**
