

Educating the next generation of health care professionals

Five schools. Nearly 70 degree specialties. Pre- and post-baccalaureate certificate programs. The UT Health Science Center San Antonio prepares its health care professionals to serve South Texas and the world.

Long School of Medicine

The Long School of Medicine, ranked one of the top three in the United States for Hispanic students by Hispanic Business magazine, has a strong and supportive faculty and numerous opportunities for building clinical and research skills. Our medical research institutes and nationally recognized cancer treatment programs combine education and research to provide some of the country's most innovative care.

Affiliated Institutions

The UT Health Science Center San Antonio is part of a multi-university collaboration to offer a Ph.D. in translational science — a field that melds basic and clinical research that can then be translated into practical patient care. We partner with the UT Health Science Center Houston School of Public Health to offer a dual-degree M.D. and master's of public health for our medical school students.
