# BALLAST
**UNMATCHED SECURITY. UNWAVERING SERVICE.**

**BALLAST** is a cloud-based risk assessment tool that streamlines the assessment process and provides on-demand compliance reporting

*One-Click Compliance Reporting*

☑ Spend less time assessing and more time managing risks

☑ Meet your industry and regulatory requirements

☑ Enjoy not having to track and consolidate multiple spreadsheets

## FEATURES

**Dashboard Reporting**
Intuitive dashboard delivers real-time feedback on assessments and risk levels

**Assign Assessments**
Track assessments over multiple facilities and delegate tasks to process owners

**Customizable Threats**
Use pre-built threat and control standards or create your own

**Track Remediations**
Seamlessly create, assign, and track remediation activities and due dates

**On-Demand Reports**
Generate risk assessment reports on-demand for auditors and regulators

**Upload Artifacts**
Upload assessment artifacts as evidence of control effectiveness
