ICAP FUSION - Connecting Markets

Your window to liquidity, one global platform – live in over 50 countries with price discovery and market access in every major asset class

We know every trader is an individual with different styles, market coverage and interests – on Fusion you can trade your way - you decide what combination of products and access suits you. Connecting you to ICAP's global markets on one simple, web based screen.

Fusion has a dedicated team of designers and developers creating a highly visual and intuitive GUI; a team of great product minds constantly evolving our output; and a team of sales account managers to ensure a great customer experience.

All major asset classes available: FX, Commodities, Rates, Equities, Fixed Income

- CLOB in FX, Bonds and CDS
- Volume matching for Rates, FX, Bonds, CDS and Commodities
- Whiteboards allowing price discovery
- Scrapbook
- Equity Derivatives cleared EFP product in collaboration with BATS Exchange
- CNH Hub
