

Employers

When we serve your people, we serve you

Make health care spending and saving easier for everyone by partnering with Further. We'll help you deliver everything your employees expect, but better – account types for every need, proactive customer support, and tools to guide every step. With our consistent support, employees are empowered to make healthier choices, improving outcomes and lowering costs long term for all.

Let's get started

Solutions for every step of the journey

Our purpose is your people – to help them spend every day wisely. Here's how:

Superior customer service

When your employees need help, we're there. Our proactive approach heads off issues early and helps people feel confident in their choices. No wonder we have one of the highest customer satisfaction ratings in the industry.

Advanced tools and technology

Employees want to feel confident about their health care spending choices. We make it simple with up-to-date education and resources, and a seamless experience from website to mobile app to smart payment card. A robust Learning Center provides tools, resources, articles, and FAQs so that spending every day wisely is easy.

Full suite of products

Employees' health care needs can be complex and diverse, so we offer a wide range of health spending and savings products to choose from, all designed to help them understand how their health and money are connected.

A partnership that works

Our approach to consumer-driven health care spending leads to better financial engagement by every measure:

Together we create better health care consumers

Health care spending account use increases

Health care costs are reduced for you and your employees

Helping create healthier employees

While Further helps you better manage your costs with flexible health accounts, employees can pay medical expenses with pretax dollars, save for future expenses and grow retirement savings. This is how it feels when things just work.

Ready to talk?

Tell us a little bit about your business and take the first step to empower employees to make healthier choices, improve outcomes and lower costs long term for all.
