 **Ride Comfortably**  
Foam seat & 14 inch wheels

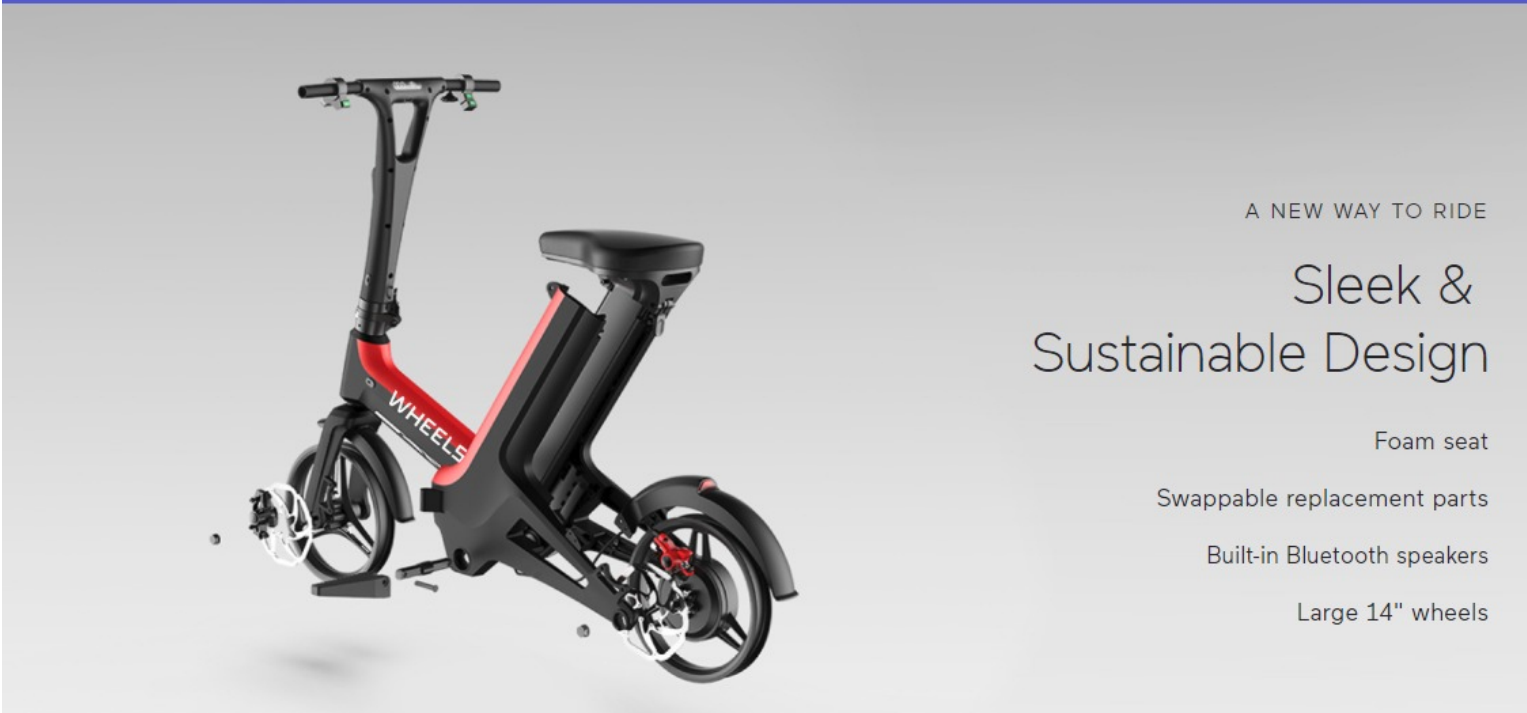

**Sustainable Design**  
Removable battery and swappable parts

 **Plays Music**  
Built in Bluetooth speaker system

These are so much fun! Way better and easy to maneuver!

Wheels Rider, San Diego CA

A NEW WAY TO RIDE

## Sleek & Sustainable Design

- Foam seat
- Swappable replacement parts
- Built-in Bluetooth speakers
- Large 14" wheels

## Our Focus

### SAFETY

We believe that our design creates a safer riding experience for everyone. Our devices are created for commuters to get from here to there, safely.

### SUSTAINABLE

Wheels are highly modular in their design, with swappable replacement parts and removable batteries resulting in real-time dynamic maintenance upkeep.

### COMFORTABLE

You can sit or stand, play music or listen to podcasts over Wheels with the built-in bluetooth speakers, as well as charge your phone. Wheels allows you to truly customize your commute.

### RELIABLE

Our team swaps the batteries when they are low, which means every bike gets a proper check-up, our employees maintain our bikes in house.

INTRODUCING A NEW GIG ECONOMY

Become a Transporter and  
earn cash by moving bikes.  
No more charging at home.

- Move bikes to hubs and earn cash
- A better approach to micro-mobility
- No more charging at home
