Statement of Use

Re: SN 88162232: OPENSRCI

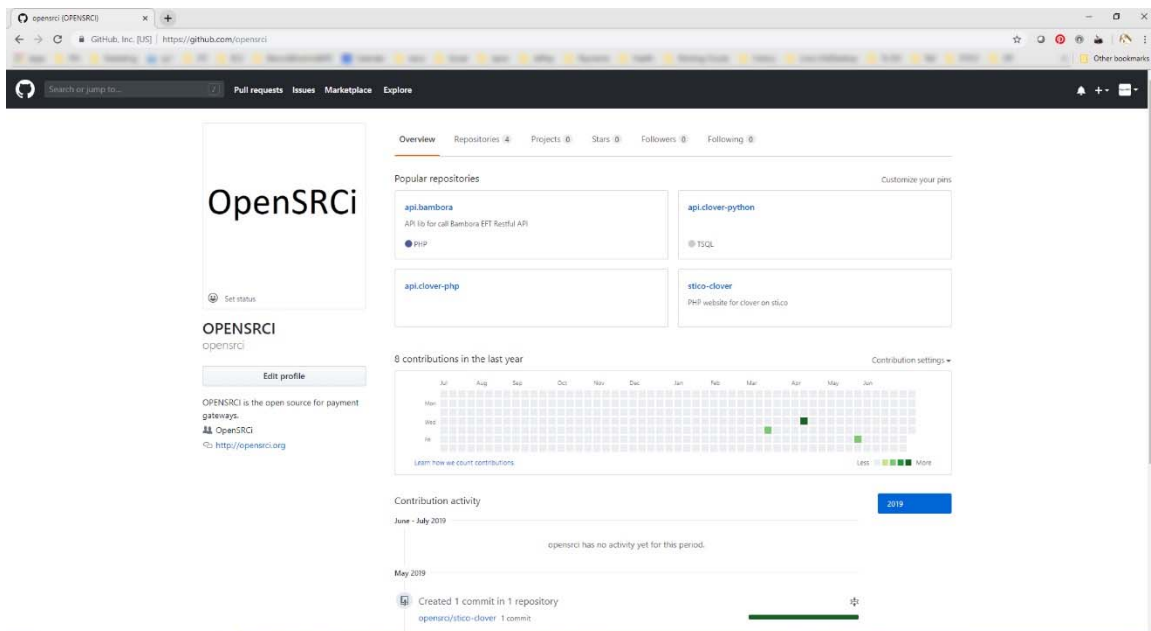

The OPENSRCI is in use as a repository at open source publication site github.com:

<https://github.com/opensrci>

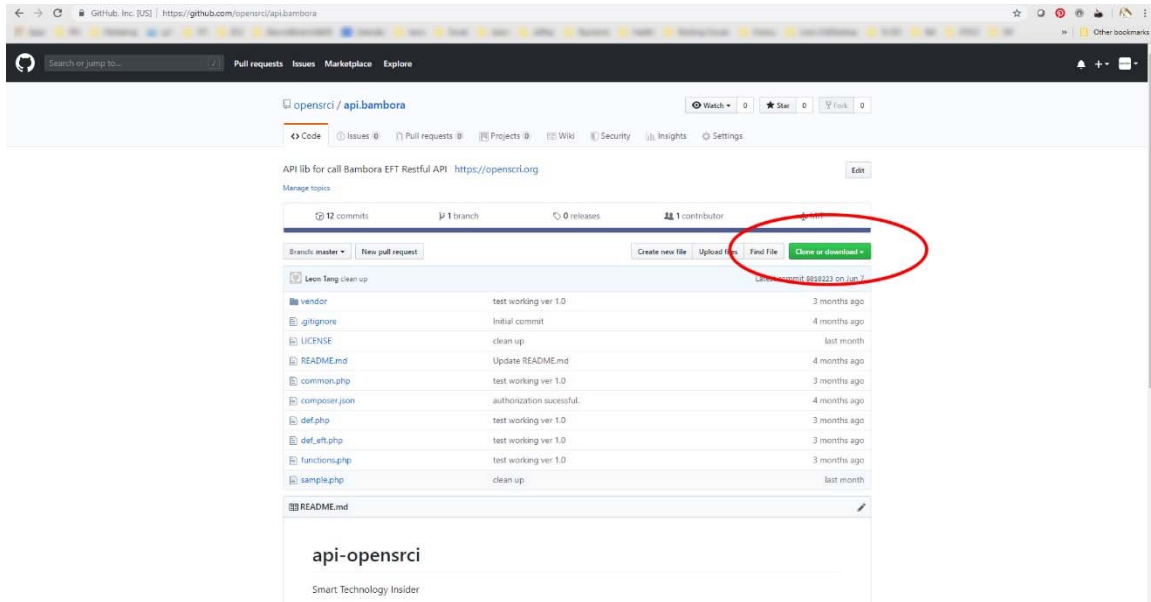

Currently, there are 4 repositories in live to offer opensource APIs for gateways.

Another URL (website address) is also publicly accessible via <http://opensrci.org> and it will be redirected to <https://github.com/opensrci>.

The following is the screenshot of the web page:

The website of OPENSRCI offers visitors free of charge download/clone for the source codes as the products (button showing in red circle):

Summary

OPENSRCI as a good trademark has been using publicly already.

Thanks,

LIJUN TANG
