Advancing Health of Vulnerable and Publicly Insured Populations

Through research and analytics, technology, advisory services, and program implementation, we help federal and state agencies and other organizations improve health outcomes. Our solutions are more than road maps for improvement—they are a driving force for innovation.

News and Updates

Altarum Appoints Military Sociologist Bradford Booth to Lead Military and Veterans Health Work

Bradford Booth, PhD, has joined Altarum as head of its Center for Military and Veterans Health, which provides data-driven solutions for agencies within the U.S. Department of Defense and the U.S. Department of Veterans Affairs that improve access and quality of care while achieving operational efficiencies.

July 26, 2019

Altarum Joins ABMS Portfolio Program, Expanding Reach of Its Continuing Health Care Education Initiative

The American Board of Medical Specialties announced today that Altarum has joined its Multi-Specialty Portfolio Program, enabling physicians who are board certified by one or more of the 18 of 24 ABMS Member Boards participating in the Portfolio Program to earn Maintenance of Certification (MOC) Improvement in Medical Practice (Part IV) credit for approved Altarum practice improvement and quality improvement activities.
