POWERED BY flexa

SPEDN is the simplest and easiest way to spend cryptocurrency in stores.

Unleash your electronic cash—instantly—with just one tap and no fees. Powered by Flexa, SPEDN makes it possible to spend Bitcoin and other cryptocurrencies without needing to cash out to US dollars or load a plastic card. Instead, just take your phone into any store that accepts Flexa, tap the brand where you'd like to spend your cryptocurrency, and scan your unique flexcode for payment.

LOAD
 Tap the coin you want to load into the SPEDN app, and then reveal a unique deposit address in order to easily load the balance of your choice from any other cryptocurrency exchange service.

TAP
 When you're ready to spend, just open SPEDN, tap the name of the Flexa-accepting store where you'd like to use your cryptocurrency, and reveal your flexcode for instant payment at point-of-sale.

PAY
 Finally, have your cashier scan the dynamic flexcode that appears on screen. In seconds, your cryptocurrency balance is converted into dollars, covering all or part of your purchase, and your transaction is complete.

SPEDN currently supports Bitcoin (BTC), Ether (ETH), Litecoin (LTC), Bitcoin Cash (BCH), and the Gemini dollar (GUSD), with many more coins coming soon.

What's New

What's New:
 • We've made many small adjustments to improve the app for anyone who enables a smaller or larger system text size via Dynamic Type.

Crypto has never been easier to spend...
This app is soo slick and easy to use. With all the merchants coming on board this app will only gain in popularity. And thanks for the \$5 bonus to join, and thank you for adding [more](#)

Works but doesn't work
This payment method has worked at Nordstrom and Top Golf! That's awesome. However, I went to Alamo Drafthouse and they wouldn't take it. They were also pretty [more](#)
