## Experiences App

by Helpful Human

An integrated tours, tickets, classes, and events app

3.6 (7 reviews)

Add app

\$49/month. 14-day free trial.

### Not a third-party plugin

Our app works with your existing customers or creates new ones so you can leverage all the tools in your store to grow customer value.

### Integrated and easy-to-use

From the customizable theme automatically added to your shop to the seamlessly designed admin and POS app, you'll feel right at home.

### Included POS app

You can check-in and also book new Experiences straight from the POS app. No need to lug your computer around!

## About Experiences App

### What is the Experiences app?

Our app allows you to host tours, classes, or events seamlessly, from within Shopify's eCommerce system. If you are a merchant that understands the power of creating memorable moments through experiences, you're in the right place!

### Designed exclusively for Shopify and your store

Just like that special pair of pants that fit "oh so nice" right out of the dryer, the Experiences app seamlessly integrates into your Shopify-enhanced life. Forget about off-brand, off-site, and kludgy booking tools - the Experiences app feels like it belongs from day one!

### Real-time updates to availability

You will enjoy the robust date and time features created for your Shopify store that automatically updates availability with each customer booking. Cancellations and capacity changes are quickly reflected in the customer experience and admin. No fuss!

### Installs automatically

Our app creates a new page with a special layout to avoid theme conflicts and create a special booking experience for your customers.

### Automatic reminders

Your customers receive emails when they make their initial booking and also receive an automatic reminder 1 day before the event. Studies have shown that when people forget things, helping them remember means they're no longer forgetful. Yes, profound, we know.

### Make it yours

Even though we create a nice-looking layout for you automatically, feel free to customize your Experiences page to your heart's content. We provide support for any merchant looking to make changes to the look-and-feel. Just reach out!

### Fantastic support

Don't be shy! If you have a question, idea, complaint or just want to share a strange gif, you can interact with us through our support channels. It's an understatement to say that we know our success rises and falls on the quality of our support so our whole team is involved in helping to delight and serve you.

### More stuff on the way

We are already designing and building upcoming features that will improve your ability to engage your customers and provide world-class experiences. Take a look at our product roadmap to see what's coming and feel free to make your own suggestions.

### Non-Profit Pricing

If we detect that you are a non-profit store with Shopify, we will automatically apply a 20% discount. Bam!

### Free for development stores

If you are a Shopify partner or are working with one, the app is free until the store is live.

### How are some merchants using our app?

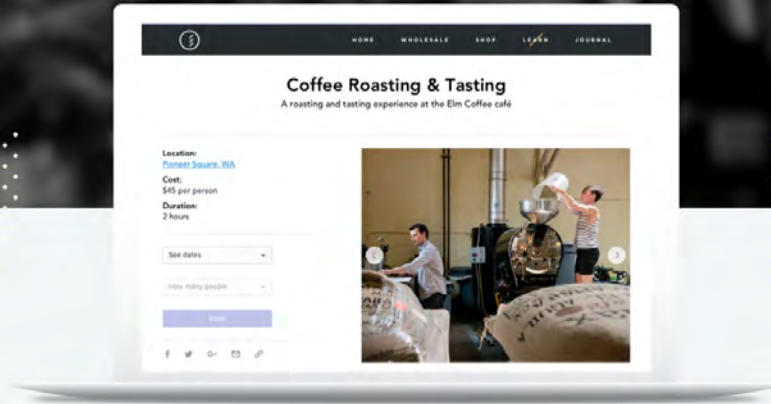

- Workshops like candle-making, jewelry creation
- Travel including tours, transportation, Van rentals, excursions
- Unusual stuff like cat cafes, rage rooms, axe throwing
- Major entertainment such as concerts and festivals
