In 2014, America's Oldest Speed Shop returned to its competitive racing roots by sponsoring Team Speedway. With Goodguys AutoCross and SCCA events as testing grounds, Team Speedway drivers have pushed the '70 Camaro, '68 Camaro and '65 Nova test cars to incredible limits, slamming through courses with 1.7g lateral loading and intense braking, plus acceleration that only a 750hp engine can provide. If G-Comp components can handle this type of punishment, you can be sure they'll be reliable for whatever automotive activity you have planned!
