COMMUNICATE CLEARLY WHERE EVERYONE ELSE STRUGGLES WITH THE SONIM XPAND LOUDSPEAKER (XPand LS)

The Sonim XPand LoudSpeaker (XPand LS) is the latest integrated accessory from Sonim for people who work not only in rugged but also extremely loud environments. This fully rugged external loudspeaker is the perfect solution for customers using our Push-To-Talk solutions in industries such as construction, heavy manufacturing, transportation or security.

Sonim XPand LS features a maximum volume up to 100 dB - just as loud as LMR/PMR Handhelds - very low distortion as well as Mil-Spec 810G and IP-68 certifications with the Sonim handsets. These attributes will let professionals communicate instantly and clearly whether supervising a construction site next to a jack hammer or a concrete drill, working in a heavy manufacturing plant surrounded by giant turbines or running security in a stadium surrounded by 50,000 cheerful visitors.

In addition to being fully certified by Sonim, the Sonim XPand LS is also backed by its industry-leading 3-Year comprehensive warranty.
