- Company Overview**
STIHL is the #1 selling brand of handheld outdoor power equipment in America.
- Although the ideal remains unchanged, the tools of the STIHL craftsman have transformed dramatically. Controlled machines craft intricate components with speed and dexterity the artisan never imagined. And lasers examine production quality with far greater precision. Craftsmanship was a state of mind among STIHL employees in the past. It remains true today.
- Your Best Assurance of Quality**
STIHL Incorporated has qualified for ISO 9001 and 14001 Registration. This means that STIHL Incorporated meets the rigid manufacturing and quality standards set by the International Standards Organization. Periodic audits by independent auditors ensure that the guidelines are being met. Meeting these standards enables STIHL Incorporated to ship the highest-quality products, manufactured in its

Registration. This means that STIHL Incorporated meets the rigid manufacturing and quality standards set by the International Standards Organization. Periodic audits by independent auditors ensure that the guidelines are being met. Meeting these standards enables STIHL Incorporated to ship the highest-quality products, manufactured in its Virginia Beach plant, to customers throughout the world.

Enthusiasm For The Future
STIHL is committed to designing and building high quality and innovative products. We are committed to our employees and to the future of the power equipment industry.

General Information
Virginia Beach-based STIHL Inc., one of several manufacturing facilities in the STIHL Group, is the headquarters for U.S. operations. STIHL Inc. employs over 2,000 people nationwide, with more than 1,800 in Virginia Beach, Va., in a variety of positions from manufacturing, product assembly, manufacturing engineering, sales and marketing, and finance.

The Virginia Beach facility is located on approximately 90 acres with over one million square feet under roof, where the company produces a full line of high-quality, handheld outdoor power equipment including blowers, trimmers,
