Tired of it sounding like you have a body in your trunk? We were. That's why we developed the car holder, a brilliantly minimal but incredibly effective system to keep your board secure and stationary while you drive. It fits the hub of your Onewheel motor perfectly, takes up virtually no room and you can take it out of your car at any time.

Say goodbye to the days of pebbles in your shoes and stay above the fray with the Onewheel Fender. The Onewheel Fender allows you to embrace the elements and attack the messiest lines head on. The Onewheel Fender easily screws into place using the included fasteners and allen-wrench allowing riders to install and remove depending on conditions. This pant protector, bat-mobile inspired fender is the only way to outfit your Onewheel for any conditions.
