COLORESCIENCE® TOTAL EYE™ SERUM DELIVERED BY PERK

The Colorescience Total Eye™ Serum contains powerful ingredients that help to brighten the eye area, reduce puffiness and dark circles, and smooth fine lines and wrinkles. Delivered by Perk™ the eye area is immediately hydrated and awakened.

TECHNOLOGY

As a hybrid facial, Perk™ gives providers and clients the best of both worlds, combining efficiency with effective results.

Performed in as little as 10 minutes, a Perk™ eye service focuses on replenishing the eye area. Also known as a liquid exfoliation, Perk™ uses patented roller-flex technology to loosen dirt, oil and dead skin cells through gentle exfoliation while flushing and suctioning away those impurities. At the same time, pores are gently flexed to replenish skin with vital antioxidants and nutrients to awaken and invigorate the delicate eye area.
