

# ON RAMP >>

**THE GOLD STANDARD FOR  
INTERACTIVE CDL TRAINING.**

## FOR SCHOOLS THAT THINK OUTSIDE THE BOOK

On Ramp is the gold standard for interactive CDL training, and it's better than any book. With On Ramp, you get robust online training in 30+ topics, a Group Training mode to lead in-class discussions on course content, automated testing and record-keeping, and a flexible LMS to help you manage it all.

## ON RAMP FOR CDL SCHOOLS

Robust training curriculum in 30+ key topics. Plus, host your own training, too!

Assign, schedule and report on training.

Save time and money with online training that students can take from anywhere.

Use Group Training mode to lead in-class discussions on curriculum areas.

Track classroom and behind-the-wheel time and proficiency.

Enjoy real-time record keeping and secure data storage.

## THE ON RAMP DIFFERENCE

On Ramp provides your school with quality, cost-effective training, a modern and interactive experience for students, and a world-class system to manage your data.

### **Deliver Better Training for Less Money**

Online training is far less expensive than hiring an instructor for the same number of hours. Assign On Ramp training videos as a prerequisite so your instructors can spend their valuable time on "next-level" skills and individual evaluation.

### **24/7 Access to Training**

On Ramp online courses work on any device that connects to the Internet. Students can start a course on their tablet or smartphone and finish it later on a computer without losing their place.

### **Automate Testing and Record-Keeping**

On Ramp lets you automatically administer and score written tests and record completion data. You can also keep track of important student data like contact information, hours logged behind-the-wheel, and anything other data point you want to track.

### **Maximize Instructor Time with Group Training Mode**

Instructors can also use Group Training mode to cover entire courses in the classroom. Once the instructor completes the course, students automatically get individual assessments. Our system records the completion data for your records.

### **Future-Proof Your Training Content**

All our online courses are evaluated on a regular basis and updated quickly based on new rules and requirements, so you'll always have the most up-to-date content for your drivers.

### **Combine Industry Experience with Proven Quality**

ITI has been providing computer-based training to the trucking industry for more than 20 years and is endorsed by truck drivers and safety trainers alike. We take quality and safety seriously, and it shows in our training.

## **TRAIN AND TEST DRIVERS IN 30+ CORE CURRICULUM AREAS**

On Ramp delivers training in 30+ curriculum topics that are essential to obtaining a CDL. And because we continually update our training to ensure it meets the latest regulations, you can deliver great training now, and rest easy knowing you'll always be compliant in the future.

## **EASY PEASY ASSIGNING, TESTING AND RECORD-KEEPING**

On Ramp is powered by Sentix LMS, our powerful training automation system, customized to meet the needs of CDL schools. With On Ramp, it's easy to manage student data,

keep track of assignments, and test and score student mastery:

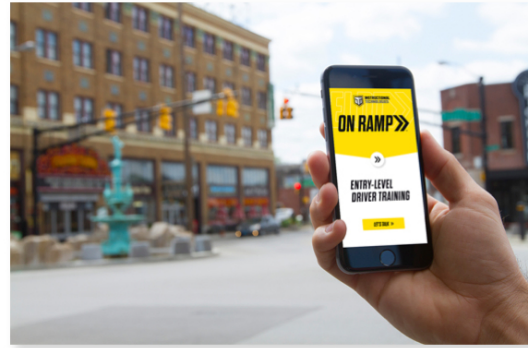

- Maintain secure records of all required student data.
- Quickly assign, schedule and track training for hundreds of students at a time.
- Automatically administer and score tests.
- Log number of hours spent on behind-the-wheel training.
- Provide drivers with proof of certification upon training completion.

## ***JUMPSTART YOUR ELDT READINESS TODAY***

In addition to providing ELDT-compliant training through On Ramp, ITI can help you assess your overall ELDT readiness. We've been on the forefront of the proposed rules, leading with firsthand involvement in formulating the ELDT student curriculum, instructor certification and training provider requirements.

**Don't get caught up in the confusing maze of ELDT — let ITI prepare you!**
