

Rise above, with Zenly

Origination made easy and simple- Zenly

Zenly™ is a cloud-based loan origination system built exclusively for brokers to take your business to the next level. Starting with a modern, mobile-friendly, borrower experience and ending with integrated wholesalers or 3.2 file export capability, Zenly's features will wow your borrowers and help you grow your business.

Includes Calyx Wholesaler MarketPlace

Transact seamlessly with industry-leading wholesale lenders. With no forced lender restrictions, you'll bring your borrowers one step closer to their dream home. Brokers can connect with a participating lender directly from their LOS and submit a loan file. With select wholesalers, brokers can also transfer borrower-authorized, digital bank statement data and receive rate lock confirmation.

Features You Will LOVE

Enjoy More Leads

Capture your borrowers in real-time, the moment they decide to initiate a loan application. Through Zip™, our mobile-friendly borrower interview, your borrowers can get started with the click of a button, without any of the confusing forms or paperwork.

Reduced Time to Close

Enjoy automated, digital asset verification for your borrowers. Zenly's integrations and algorithms create a faster online asset verification solution which means faster results for you.

Run Your Business, Your Way

As a cloud-based LOS, you will always have the latest and greatest version of Zenly. Rest assured knowing you can quickly access it from anywhere, anytime.

Collect Borrower Docs in a Snap

Say goodbye to long, drawn-out, and complicated doc collection. Zenly's camera capture feature makes the process seamless.

Ensure Consistency

Zip allows users to ensure consistency among your company's individual-level accounts with its Super Administrator account role. This role can oversee, manage, control, and standardize all of your company's individual Zip accounts, including loan originator websites and information.

Our Participating Wholesalers

Caliber Home Loans
