August 7, 2019

RingCentral UK Ltd, a leading provider of global enterprise cloud communications, collaboration, and contact centre solutions and a wholly-owned subsidiary of RingCentral, Inc. (NYSE: RNG), today announced an agreement with Fujitsu to provide enterprises across EMEA with cloud communications and contact centre solutions for enhanced mobility, workforce productivity, and customer engagement.

The agreement supports Fujitsu's strategy of building a strong ecosystem of partners across its Digital Workplace portfolio, adding productivity tools to enhance Fujitsu's unified communications as a service (UCaaS) offering. This helps organizations to transform workplaces and to improve employee engagement.

Fujitsu will offer RingCentral Office™ and RingCentral Contact Centre™ as part of Fujitsu Digital Workplace solutions. The agreement between RingCentral and Fujitsu will cover Austria, Belgium, Denmark, France, Ireland, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

"The cloud has changed the workplace and how people work forever. Employees want to be more autonomous, entrepreneurial, and free from the constraints of traditional working hours. To attract the best talent and unlock its creativity, businesses must create a compelling employee experience that enables and supports their expectations," said Annette McInnes, head of employee experience at Fujitsu. "We're committed to delivering industry-leading workplace solutions to our customers, and we're proud to be associated with RingCentral."

Marilyn Piontso, VP of strategic partnerships at RingCentral said, "The benefits of cloud communications to the enterprise are clear—from employee productivity to customer engagement.
