# FUTURE DEVOPS EXPERIENCE REIMAGINED...

The screenshot displays a configuration management interface. On the left, a sidebar titled 'Pending Configurations' shows a progress list: 'Jira' (Configured), 'Confluence' (Needs configuration), 'Git' (Configured), 'Maven' (Needs configuration), 'Jenkins' (Needs configuration), 'Artifactory' (Configured), 'Selenium' (Needs configuration), and 'Veracode' (Needs configuration). The main area is titled 'Configuring - Confluence' and shows a progress bar for '3/12 Validated'. A red alert banner reads 'Alert 1: Admin needed to configure tool 1' with a 'RAISE TICKET' link. The configuration form includes a 'Confluence' logo, three dropdown menus with 'Lorem Ipsum' and 'Dolor Oder' options, a numeric input field with '2' and +/- buttons, and 'Back' and 'Next' navigation buttons. A 'Save' button is located in the top right of the main area.
