# Create & innovate faster

Empower cross-functional discovery and brainstorming through an infinite canvas, robust set of widgets, prebuilt templates, and powerful platform capabilities.
Miro presents an entire toolkit for user story

or customer journey maps, wireframing, roadmap or sprint planning, retros, and more.

**Templates & frameworks**

Use pre-built templates or create your own templates and smart frameworks.

**Infinite canvas**

Unleash your creativity and work the way you want to with an infinite canvas.

**Widge|**

Utilize sticky notes, freeform pen, shapes, arrows, smart drawing, and more.

**Mouseover collaboration**

See collaborators' cursors to track how team members engage with your boards.

**Easy screen sharing & presentations**

Share your work directly from the Miro platform.

**Embedded video, chat & commenting**

Get feedback, reviews, and approvals with multiple communication options.

# Centralize & standardize

Create a hub for cross-functional work that also works with all your other tools.

## & standardize communication

Standardize and scale processes company wide for all-around digital transformation, whether your team of teams is entirely collocated or distributed worldwide.
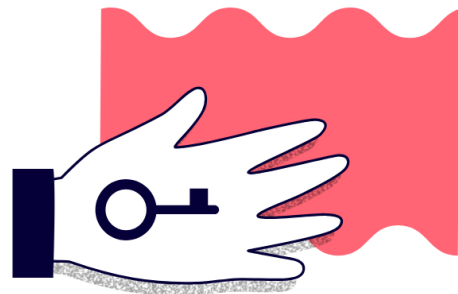

## Projects

Find boards faster through easy folder organization and structure.

## 20+ integrations

Streamline your workflow with integrations to Slack, Jira, Google Drive, Sketch, and more.

All apps & integrations →

## Account & user administration

Painlessly scale account administration and user permissions company-wide.

## Rest easy with enterprise-grade security

We take your security and privacy seriously. Rely on our dedicated approach to security with SSL encryption, SSO, advanced user management, audit log, domain filtering, and more. Plus, Miro is fully SOC-2, GDPR, and PCI compliant.
