

What is ReferHer™?

Alicja Kubiak

2 months ago · Updated

ReferHer™ is a new feature designed to get more qualified and experienced women referred for corner office positions.

How does it work?

ReferHer is designed to work very simply. Members are invited to earn additional income by:

- Making sure Ladders has their current company on their profiles.
- Allowing Ladders to suggest qualified contacts for open positions there.
- Seeing female professionals sorted to the top in the weekly suggestions sent to them.
- Earning referral reward money from their companies for each successful hire.
