

## Welcome to JLSecure™

Your one stop for data security, cybersecurity, and data breach response needs.

With the *JLSecure™* portal, organizations of any size, including small and mid-sized businesses (SMBs), have at their fingertips a comprehensive resource for their data security, cybersecurity, and data breach response needs. Built by our leading privacy and data security attorneys for users of all levels, *JLSecure™* offers interactive e-learning modules, assessment tools, map-based state law surveys, sample policies, and training resources to help users build their own compliant information security program. Together with our strategic partners, users can access comprehensive pre-breach compliance resources and our *JLSecure™* breach response services including breach coaching and legal advice, as well as IT forensic, incident notification, and call center services.
