The work of a professional can make all the difference. Whether your home has 10 bedrooms, or your apartment is 800 square feet, it can be tricky to create a cohesive look that is representative of your style. That's where a local interior designer comes in. A home decorator will help distill your tastes and ideas into a design that suits the needs of your space. Whether you need help creating a functional space plan, rearranging existing pieces, designing the inside of a new home, or simply sourcing amazing furniture and decor, seeking the help of professional interior designers and decorators is a must. "Leyla came out for a 2 hour consultation. My intent was to get ideas and colors for a dining room and bathroom. It was totally worth it because Leyla seems to instinctively know design. In her mind's eye she saw a round table where I had been considering to switch out my rectangular dining table for a round one but I hadn't even asked her yet. She pointed to me that of all the pictures I saved for her to see what style attracted me, my current decor did not reflect it, in color or style. Seems like a no brainer and yet I didn't see that until she showed me specifics. She pointed out things like wallpaper and paint meeting without an architectural break was a no no. I never liked the way it looked but didn't know why. She honestly pointed out that my kitchen was too dark, and that I should repaint the dark ceilings. Her manner is direct, honest and cheerfully friendly. I had a long list of questions and she addressed every one satisfactorily whether it was about draperies, wall colors or furnishings. I would hire Leyla again. Sorry no pictures yet. Because I'm acting as my own general contractor and doing a lot of the work myself it is taking longer than anticipated, perhaps I can attach a photo later on."

"Very generous designer who made my tiny rental feel spacious and bright! So grateful for Jenn's excellent list of recommendations she offered me within 24 hours after seeing my home. She helped me realize that my space doesn't have to be or feel small by changing a few simple things such as, painting the interior, raising all the curtain rods to make my ceiling feel higher, layer cowhides on the cold tiled floor, moved my paintings around that made more sense to view, helped me find beautiful decorative pillows, dining table and chairs, and the most comfy modern chair and ottoman we all fight over to sit in and most importantly she suggested many choices to choose from to change out all the old dated light fixtures. I learned that investing in great curtains, sconces to lamp shades would be worth the investment since I can take them with me if and when I ever move. My home now feels spacious, fun and festive to visit and a whole lot bigger and brighter because I used every single one of Jenn's innovative ideas. Loved her smart suggestions and felt she respected my small budget and made it work besides making my cozy place a place all my friends and family love to visit. I highly recommend Dreamlife Designs, your dreams will definitely come true if you choose to work with Jenn and her team. Mary A. (Mill Valley, Ca.)"

★★★★★ August 15, 2012

"For my kitchen renovation, Claire gave me excellent design advice, creating a vision that reflected my taste and my goals. She even stuck to my budget, which was often challenging: when I fell in love with backsplash tiles that were out of my price range, she worked patiently to find a substitute that I preferred for 80% less. Finally, on the practical side, Claire capably coordinated the different aspects of the project, understanding exactly what needed to be done and when, making sure the project was completed in a timely fashion."

Haven Design and Construction

Interior Designers and Decorators

★★★★★ May 5, 2016

"If you are looking for a dynamic duo with high level design expertise, work ethic, and skill to create a bathroom or kitchen masterpiece, I HIGHLY recommend Haven Design and Construction to help with your project needs. I have personally known Jana Valdez for over 7 years and have professionally worked with her in the past with clients projects. She offers clients creative ideas that help fulfill their vision for their living spaces while also delivering superb customer service from start to finish. She is extremely dedicated and passionate about design and has attention to detail which is extremely valuable within this industry. Haven Design and Construction delivers a high level of integrity and will work diligently with others to ensure your project is completed with satisfaction."

Savvy Interiors

Interior Designers and Decorators

★★★★★ January 15, 2013

"I cannot say enough good things about Savvy Interiors. I bought a house two years ago that I took from completely tuscan to completely transitional with the help of Susan and her team. They have the ability to make your "dream board" come to life! Susan is a master at mixing and matching prints, colors and textures. She has incredible resources for custom furnishings and build ins... all within budget. I am so proud of my house, and I get compliments from all my guests. This should say it all: I took pictures of my interior design to a favorite store and asked them to provide a wardrobe that complimented my house!"

Nathan Taylor for Obelisk Home

Interior Designers and Decorators

★★★★★ September 12, 2013

"The most surprising aspect of working with the Obelisk team is the personalized relationships that develop during the design process. Nathan and his team take the time to become knowledgeable about their client. This facilitates a completed project that "fits" the personality and lifestyle of those utilizing the space. This process results in friendships and working relationships that last."

Jenni Leasia Interior Design

Interior Designers and Decorators

★★★★★ February 13, 2012

"Jenni has just completed complete interior design work, including cabinet elevations for kitchen, bar (s), great room, mud room and bathroom spaces for our two-town home project. Besides being delightful to work with, Jenni has the ability to assimilate our decorating vision with the practical application, and worked within our budget, both for our own house and for a town home we will be selling in the near future. The result, which will be photographed soon, is a home that delights us every day, runs perfectly, and was created over time without a major glitch. Even if we only had a chair to recover, we would go to Jenni!"

"Irene was wonderful to work with. Her ideas were unique and aligned with our vision - she had good insight and perspective but was still able to maintain the personal feel that we wanted. She is very good at highlighting personal touches without being too kitschy. Nice use of color but still kept the room sophisticated. Our son is now 15 months old and growing into the room beautifully. I highly recommend her work."

What does an interior designer do?

A good home design professional will hone your style down to its very essence and be able to choose a functional layout that feels natural to you. Interior design companies can be involved as much or as little as the client desires. Many clients who hire an interior decorator — particularly those who are remodeling — have a good sense of how the room should look and what products they should use. Often clients will insist that interior decorators use the products already present in the house. Other times a designer will need to start from scratch — especially if this is a newly purchased or just-built home. An interior design company will need to figure out exactly what the client needs, which includes organizing rooms, picking flooring and wall colors, and finding furniture to complement it all. Sometimes that means he or she will have to recruit help from other home professionals to help create the perfect look for your renovation. Here are some related professionals and vendors to complement the work of interior designers & decorators: Architects & Building Designers, General Contractors, Home Builders, Design-Build Firms, Photographers.

Do your research before meeting with an interior designer or home decorator. Ask yourself what you want your space to become and what it will be used for. Figure out the extent of what you need help with, what your must-haves are and what your budget is. Interior design services can add up fast, so be up front with a potential design firm or individual from the beginning. Also, pick an interior decorator that fits your style. Browse through the portfolios of different interior design firms and decide if you would live in those houses. Just because you like something doesn't mean you could live in it. There's a big difference!

Questions to ask when you meet with local interior designers:

- Can you give me a referral? (It makes a big difference to talk with a client who's worked with the designer before.)
- Can I see your design portfolio?
- When will the home renovation be done?
- Do you charge an hourly rate or a flat rate, or use the cost-plus method or a mixed method?

Find an interior designer or home decorator on Houzz. Narrow your search in the Professionals section to find interior designers near you. You can also look through photos to find a room you like, then contact the design firm who designed it.
