Only artificial sweetener that tastes like sugar

Most helpful negative review

Okay product -- better without shipping

I use over 30 packets each day & have for many years. Four in 2 cups of coffee & 32 in a half gallon of ice tea. **VS** Never any adverse affects & it has no calories! I do miss the 2000 packet size that seems to have disappeared & was much less expensive. Consumer's Magazine tested it some years ago against Splenda & sacharine. Equal won easily.

The product is okay (I don't use it, but members of my family do). But I miss the days I could buy in at my local Sam's Club store. Now like many other Sam's products, I have to buy it online, pay the shipping and wait for it. Hopefully this is not the way it will be in the future for all Sam's products.
