

Download Digital ID

Don't sacrifice your peace of mind, security or privacy when using the Internet on your computer or mobile phone. Organize and safely store your passwords, keep spammers at bay by creating alternate email addresses and become aware of where your personal data is disseminated. Taking control of your privacy starts now.

DESKTOP BROWSER EXTENSION

Chrome

Four Managers (Password, Alias, Tracker and Data) and a Dashboard at your disposal to help you take charge of your privacy and start protecting your data. Encrypt your personal data, log in with a click, block intrusive trackers and cookies, create alternate email addresses, etc. Try it and you won't go back.

ADD TO CHROME

Chrome 64+ on Windows & macOS

One account synced across all your devices

From your smartphone - Open the invitation email and tap on the button to download the appropriate mobile version.

From your computer - Copy and paste the current url into the appropriate browser.
