

# Velutine™ Evo

Velutine Evo is a new fibrillation finishing technology by Asahi Kasei, only for Bemberg™ fabrics, designed to improve environmental impacts.

<i>Greenhouse gas emissions</i>	<b>–16.5%</b>
<i>Energy resources</i>	<b>–21%</b>
<i>Electricity saving</i>	<b>–20.5%</b>
<i>Steam reduction</i>	<b>–15.9%</b>
<i>Water consumption</i>	<b>–19.5%</b>

All percentages show the reduction proportion in total consumption.
