The Smart Way to Detect Bed Bugs

Synergy Scents provides A K9 Team(s) to inspect for Bed Bugs in any and all types of properties in the Tri-State Area.

MISSION STATEMENT

To help the country in its fight against Bed Bugs through the use of the heightened Canine sense of smell to pinpoint bed bug infestations and help eradicate them quickly and efficiently.

VISION STATEMENT

To have Synergy K9 Teams as the standard for Bed Bug Detection in hotels, health care facilities, Corporate America and all types of facilities that may be vulnerable to bed bug infestations, throughout the country.

Certified Services

We have several Certified K-9 Teams, in Bed Bug Detection. All teams are required to be Certified and maintain said certification by the National Entomology Scent Detection

 **Meet Your Team:**
They've got wet noses, wagging tails and fur coats... and they're the best darn bug detecting professionals you'll ever meet!

Services

Think letting dogs inspect for bed bugs is weird or risky? Well, people rely on dogs to make certain that planes don't have bombs, cars aren't full of drugs and arsonists get caught. For these, and many other services, dogs have more than earned the title "Man's Best Friend".

Let our team of super-sensitive, highly trained canines inspect for bed bugs at your property. We service all types of clients, including:

- Hotels/Motel Owners
- Hospital Managers
- Long Term Health Care Facilities
- Universities
- College Dorms
- Cruise Ships
- Airlines

Effective, Efficient, Affordable... and Cute!

Our first Bed Bug Scent Detection Canine, Cosmo (Jack Russell pictured below) began in 2008. He retired in 2015 and is now a movie star! He has the lead role in A.R.C.H.I.E. and a few other commercials and movies. Cosmo made his bones during the 2010-2011 media Bed Bug hysteria in new York City. Cosmo certainly had his work cut out for him and did an amazing job in the fight against Bed Bugs! We miss Cosmo but know he is enjoying retirement and his second career as an Actor.

In 2011 Heff (black lab pictured below) joined the Team to help Cosmo out. Heff too learned the ropes during the tail end of 2011. The media coverage in NYC was still ongoing and made for a lot of work for both Cosmo and Heff. Heff retired in December 2018

Meet Your Team:

They've got wet noses, wagging tails and fur coats... and they're the best darn bug detecting professionals you'll ever meet!

Why use a Dog?

- **Hard Working and Honest**
- **Effective** - Canine inspections are 90%-95% accurate (human inspections are 30% accurate)
- **Efficient** - A dog can inspect a bedroom in less than 5 minutes without disturbing the room. Human inspectors take close to an hour and must turn the room upside down
- **Affordable** - Because we take less time, and get better results, you pay less in the long run
- **Cutting-Edge Technology** - The "Nose" is cutting-edge technology and the latest trend in the home inspection industry. It's the only inspection tool that can detect and pinpoint sources of bedbugs.
- **Years of Service** - Dogs have been used for years by military and law enforcement agencies to detect bombs and drugs, among other things.

[Learn more](#) about why dogs make the best bed-bug detectors.
