The screenshot shows the TechCrunch Extra Crunch website. At the top, there is a navigation bar with the TechCrunch logo and the text "Join Extra Crunch". Below this is a search bar and a list of navigation links: "Login", "Search Q", "Startups", "Videos", "Audio", "Newsletters", "Extra Crunch", "Advertise", "Events", and "More". The main content area features a large article titled "All product creators can learn something from Jackbox Games' user experiences" by Jason Shen. The article includes a photograph of a man in a red shirt sitting at a table with a bowl of yellow soup and a glass of orange juice, looking at his smartphone. To the right of the main article is a sidebar with three smaller articles: "In conversation with Icebreaker, Finland's most active pre-seed VC" by Steve O'Hear, "Decrypted: Chegg's third time unlucky, Okta's new CSO, Rapid7 beefs up cloud security" by Zack Whittaker, and "Why COVID-19 could delay Interswitch, Africa's next big IPO" by Jake Bright. At the bottom of the sidebar, there is a link to another article: "In conversation with Icebreaker, Finland's most active pre-seed VC".

Earlier this week, we reached out to several investors to get their thoughts about how the pandemic is affecting gaming startups.

Yesterday, we followed up with a report that examined the
