Description

The SIGN Tribe Remove and Chill Nail Polish Eraser Cream combines care, efficiency, and an exceptionally pleasant, fresh scent for the first time ever. Remove and Chill allows for nail polish removal at any time and place - without an unpleasant smell and with an extra dash of care. Unlike conventional nail polish removers, this gentle formula effectively removes old polish while leaving nails and cuticles healthy, shiny, and perfectly presentable.

- Enriched with macadamia, almond, argan and sesame oils, vitamin E, and premium waxes, the light cream formula pampers the cuticles and nails
- Acetone-free
- Works only on regular nail polish (not on shellac or gel nails)
