 Products

ReBirth

Application :

1. ReBirth is the best technology of stripping all films for in-house reclaim fabs, with eco-friendly chemical consumption.
2. ReBirth can revive the scrap wafers and reduce the total wafer running cost for IC fabs.
3. ReBirth is a state-of-the-art technology, and it will be the best partner for In-House Reclaim fabs.

Description :

Feature :**ReBirth Service Features:**

1. Etching of semiconductor wafers and integrated circuits
 2. Assembly of integrated circuits for others
 3. Processing of semiconductor wafers
