

## CONTOUR: COVID-19 STATUS

**AS AN ESSENTIAL PROVIDER OF THERMAL PROCESSING SERVICES TO A WIDE RANGE OF MANUFACTURING AND PRODUCTION INDUSTRIES AROUND THE GLOBE, CONTOUR'S PLANTS WILL REMAIN OPERATIONAL DURING THE COVID-19 OUTBREAK.**

We've taken several proactive measures to address the challenges that COVID-19 brings and avoid any disruption to our services. We are working hard to protect the health of all our team members and stepping up health and safety efforts in our production plants, both in the United States and Mexico. We are making adjustments to the way we work in these facilities, with more frequent daily cleaning, pre-planned shift protocols and reducing access inside our facilities. We're responding as best we can to an ever-evolving situation, so if you are unable to reach us by phone during normal business hours, please send an email or use our online chat and we will respond to you as soon as possible.

## GAS NITRIDING & NITROCARBURIZING

Contour is proud to announce the addition of Gas Nitriding & Nitrocarburizing to our lineup of thermal processing solutions.

[Learn more](#)

**At Contour, we create thermal processing solutions across a broad range of industries, including:**

Aerospace & Defense

Mining, Oil & Gas

Agriculture

Medical

Automotive & Heavy Truck

Firearms

**WE DON'T MAKE PARTS**

For over 35 years, Contour has been the company leading brands around the globe have relied on for science-based thermal processing of their most

**STRONGER.**

## THE CONTOUR CORPORATE CULTURE

Integrity, Innovation and Initiative are the three pillars of Contour's corporate culture.

These are the guiding precepts that empower our team members each and every day, allowing them to develop deeper and more intimate relationships between their fellow team members and our corporate partners.

## AEROSPACE & DEFENSE

Thermal Processing of Mission Critical components require the expertise of the Science Behind the Heat

### We Treat Every Part We Process as "Mission Critical"

#### SCIENCE-BASED THERMAL PROCESSING FOR MISSION CRITICAL AEROSPACE COMPONENTS

Contour is globally recognized as the go-to thermal processing problem solver. For over 35 years, Contour has utilized a "Science First" approach when confronted with challenging thermal processing needs. Anyone can heat a piece of metal and make it hard. It's only by understanding the Science behind the Heat that allows our in-house engineers and metallurgists to guarantee repeatability, both in depth and strength, to the exacting specifications required by our partners.

#### CUSTOM SOLUTIONS FOR CUSTOM REQUIREMENTS

If there's one thing that separates Contour from the rest of the pack it's our ability and willingness to develop custom solutions to meet our partners needs. Contour's heritage is rooted in engineering custom thermal processing solutions, then building the equipment required to get the job done. If the equipment needed to meet specific component requirements aren't available "off-the-shelf", Contour has the in-house experience and the engineering know-how to build the solution from the group up.

Let Contour show you how we leverage the Science behind the Heat

# AUTOMOTIVE & HEAVY TRUCK

From the Midwest to Mexico, Contour delivers high-volume Thermal Processing

## High-Volume Reliability Is Just Down The Road

LOCATED IN THE HEART OF THE MIDWEST & SILAO, MEXICO – WE'RE CONVENIENT FROM ANYWHERE.

For over 35 years, Contour has been at the forefront of engineering thermal processing solutions for the Automotive & Heavy Truck industries.

Our in-house testing and proofing systems deliver more than just reliability and performance for our partners, they deliver peace of mind.

Our partners can rest assured that Contour's in-house team of engineers and metallurgists are committed to delivering strength and durability, executed to the depth required, for every component we process, from beginning to end.

It's our commitment to excellence and innovation that makes Contour the easy choice for the thermal processing requirements of leading automotive and heavy truck manufacturers around the globe.

Let Contour show you how we leverage the Science behind the Heat
