Intra is faster than a VPN: it protects you from DNS manipulation, a type of cyber attack used to block access to news sites, social media platforms, and messaging apps. Intra also helps protect you against some phishing and malware attacks. It's easy for anyone to use – just download the app and get started in a few seconds. You can leave it on and forget about it.

While Intra protects you against DNS manipulation, there are other, more complicated blocking

Best DNS manipulation app. Works on either mobile network or wifi. Free, no single ad ever found. No other VPN comparable to this little app!
